Journal of Atmospheric Chemistry (2005) 51: 337–338

Contents of Volume 51

Volume 51 No. 1 May 2005

YANG ZHANG, CHRISTIAN H. BISCHOF, RICHARD C. EASTER and PO-TING WU / Sensitivity Analysis of Photochemical Indicators for O_3 Chemistry Using Automatic Differentiation 1–41

C. H. SONG, Y. MA, D. ORSINI, Y. P. KIM and R. J. WEBER / An Investigation into the Ionic Chemical Composition and Mixing State of Biomass Burning Particles Recorded During TRACE-P P3B Flight#10 43–64

JEAN-BAPTISTE RENARD, MARTYN P. CHIPPERFIELD, GWENAËL BERTHET, FABIENNE GOFFINONT-TAUPIN, CLAUDE ROBERT, MICHEL CHARTIER, HOWARD ROSCOE, WUHU FENG, EMMANUEL RIVIÈRE and MICHEL PIRRE / NO_3 Vertical Profile Measurements from Remote Sensing Balloon-Borne Spectrometers and Comparison with Model Calculations 65–78

REGINA M. B. O. DUARTE and ARMANDO C. DUARTE / Application of Non-Ionic Solid Sorbents (XAD Resins) for the Isolation and Fractionation of Water-Soluble Organic Compounds from Atmospheric Aerosols 79–93

GERHARD LAMMEL, THOMAS ENGELHARDT, ADRIAN LEIP, CHRISTIAN NEUSÜß, ANDREAS RÖHRL, BIRGIT WEHNER, ALFRED WIEDENSOHLER and PAUL WIESER / Transformation of Aerosol Chemical Properties due to Transport Over a City 95–117

Volume 51 No. 2 June 2005

PETER WARNECK / Multi-Phase Chemistry of C_2 and C_3 Organic Compounds in the Marine Atmosphere 119–159

A. PERRIN, C. PUZZARINI, J.-M. COLMONT, C. VERDES, G. WLODARCZAK, G. CAZZOLI, S. BUEHLER, J.-M. FLAUD and J. DEMAISON / Molecular Line Parameters for the "MASTER" (Millimeter Wave Acquisitions for Stratosphere/Troposphere Exchange Research) Database 161–205

C. LIOUSSE, C. MICHEL, B. BESSAGNET, H. CACHIER and R. ROSSET / 0-D-Modelling of Carbonaceous Aerosols over Greater Paris Focusing on the Organic Particle Formation 207–221

SANGDON LEE, RICHARD M. KAMENS and MYOSEON JANG / Gas and Particle Partitioning Behavior of Aldehyde in the Presence of Diesel Soot and Wood Smoke Aerosols 223–234

Volume 51 No. 3 July 2005

BORIS BONN and MARK G. LAWRENCE / Influence of Biogenic Secondary Organic Aerosol Formation Approaches on Atmospheric Chemistry 235–270

M. STEINBACHER, J. DOMMEN, C. ORDONEZ, S. REIMANN, F. C. GRÜEBLER, J. STAEHELIN and A. S. H. PREVOT / Volatile Organic Compounds in the Po Basin. Part A: Anthropogenic VOCs 271–291

M. STEINBACHER, J. DOMMEN, C. ORDONEZ, S. REIMANN, F. C. GRÜEBLER, J. STAEHELIN, S. ANDREANI-AKSOYOGLU and A. S. H. PREVOT / Volatile Organic Compounds in the Po Basin. Part B: Biogenic VOCs 293–315

B. CABAÑAS, M. T. BAEZA, P. MARTÍN, S. SALGADO, F. VILLANUEVA, E. MONEDERO and K. WIRTZ / Products and Mechanism of the NO_3 Reaction with Thiophene 317–335

Volume Contents 337–338
